

Vending a Variety of Products

TCN-27-BOXES

OVERVIEW

Patent technology can achieve a single lattice door self-locking independently

Suitable for selling vegetables, fruits, flowers, dairy products, etc

The new generation lock system, after making payment, the lock can be open automatically

Cool LED light, highlighting energy-saving display internal goods, attracts customers' attention. After the purchase, the commodity place will have blue LED lights flashing, reminding customers to take away the goods purchased

Can be connected to TCN cloud server, and check all the transaction data via computer or smart mobile phone

Body material: whole steel structure, solid and durable

The grid door is complete PC transparent material, the strength and display effect is better

Support 3G or GPRS wireless long-distance backstage administrate system

According to the actual needs of cascaded Guiji, it currently supports up to 16 machine cascades

Various specifications can be customised with the cabinet's refrigeration and heating function to support the sale of heating and refrigeration food
